*If it breaks for any reason, day or night, your fault or ours,
within the next 6 months it's on us!*

Dear Friend:

Since replacing your air conditioner could cost you thousands of dollars, doesn't it just make sense to consider a professional maintenance cleaning? Especially if we take all the risk, and there is **NO RISK TO YOU!**

A Better Way. Since 93% of all Air Conditioner breakdowns could be prevented with routine maintenance, there is a better way! We are extending a valuable offer to YOU!

Let Me Explain. Most homeowners call us every Spring to have their air conditioners maintained to make sure the cooling will be working properly when Summer comes.

Once it gets Hot, the Service Technicians are hard at work repairing AC equipment. So the best time to get your AC cleaned up and working efficiently is NOW with a "TOTAL SYSTEM REJUVENATION".

When comparing our professional cleaning to lower priced "Spring Specials", notice the difference between what WE clean and THEY only inspect! Cleaning improves the efficiency and prolongs the life of your system. Inspections do ABSOLUTELY NOTHING!
